

**Lars Montelius** defended his thesis in 1987 at Lund University and during 1988-89 he spent a Post-doc year at IBM, Yorktown Heights working with Scanning Probe Microscopy. In 1989 he was appointed as Head of the Nanometer Laboratory at Lund University. His 25+ years of work in nanotechnology has centered around scanning probe microscopy & spectroscopy & luminescence & imaging & manipulation of low-D structures, electron & ion beam and nanoimprint lithography & processing applied to single electron tunneling, quantized conductance and various bio and NEMS-devices.

Currently he is the President Elect for IUVSTA: The International Union for Vacuum Science, Technique and Applications [iuvsta-us.org/](http://iuvsta-us.org/) and he is Working Group Chair of the two European Technology Platforms NANOFutures: The European initiative for sustainable development by Nanotechnologies [www.nanofutures.eu](http://www.nanofutures.eu) and EuMat: The European Technology Platform for Advanced Engineering Materials and Technologies: [eumat.eu](http://eumat.eu).
